

New Source Review newspaper advertisements for construction permit applications, November 16, 2006. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: November 14, November 15, or November 16, 2006. Public notices are generally published every two weeks. The previous publication of public notices was October 31 – November 2, 2006.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Joshua Enterprise LLC with a mailing address of P.O. Box 577, Louisville, TN 37777. They seek to obtain an air contaminant permit (Division identification number: 05-0273-01/59752) for a Gasoline Dispensing Facility located at 2954 Topside Road, Louisville, TN 37777. This existing operation consists of three gasoline storage tanks and associated gasoline dispensing equipment. Stage I gasoline vapor recovery is used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. K. McLain is the assigned Division person.

For the Blount County “Maryville Daily Times”--published once on or before Thursday, November 16, 2006.

The applicant is Crane Interiors, Inc. with a mailing address of P.O. Box 459, 200 Alexander Drive, Woodbury, TN 37190-0459. They seek to obtain an air contaminant permit (Division identification number: 08-0032-01/60441) to construct an Adhesive Surface Coating Operation at 200 Alexander Drive, Woodbury, TN 37190-0459. This proposed operation would consist of a spray booth for the application of adhesive to wood, foam, vinyl, and plastics. An exhaust filter would be used to control particulate (TSP) emissions. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Medley is the assigned Division person.

For the Cannon County “Cannon Courier”--published once on or before November 16, 2006.

The applicant is Bix Enterprises – A Division of Homax with a mailing address of 2011 Highway 12 S, Ashland City, TN 37015. They seek to obtain an air contaminant permit (Division identification number: 11-0047-01/60404) for a Material Blending Operation located at the same address. This existing operation consists of

nine (9) 1,500 gallon blend tanks and associated equipment used to blend paint stripper, paint thinner, etc. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. R. Benjamin is the assigned Division person.

For the Cheatham County "Ashland City Times"--published once on or before Thursday, November 16, 2006.

The applicant is DTR Tennessee, Inc. Tazewell with a mailing address of 150 Hester Lane, Tazewell, TN 37879. They seek to obtain air contaminant permits for construction of emission sources at the same address, as follows:

(1) Water-based Spray Coating Operation (Division identification number: 13-0083-24/60390). This proposed operation would consist of a water-based coating application via an automatic spraying system with a forced-air steam-drying chamber. A regenerative thermal oxidizer would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source.

(2) Water-based Coating Dipping Operation (Division identification number: 13-0083-25/60391). This proposed operation would consist of a water-based coating application via a dipping system with a forced-air steam-drying chamber. Fabric filters would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Steven R. Simpson is the assigned Division person.

For the Claiborne County "Claiborne Progress"--published once on or before Thursday, November 16, 2006.

The applicant is Tel-Trax Company with a mailing address of P. O. Box 583, White Pine, TN 37890-0583. They seek to obtain an air contaminant permit in order to opt out of the Title V program and become a Conditional Major facility by taking emissions limits that are below Title V applicability thresholds. The proposed modification addresses existing air contaminant sources located at 982 Wheeler Road, White Pine, TN 37890, as follows:

(1) Fiberglass Reinforced Plastic Parts Manufacturing Operation (Division identification number: 45-0079-01/58940). This existing operation consists of fiberglass molds, gelcoat and resin spray booths, and associated equipment utilized in manufacturing reinforced plastic parts used for tractor tops. Gelcoats, resins, thinners, and solvents are applied for the coating and clean-up operations. Exhaust filters are utilized for control of emissions. There would be no physical construction. Regulated air contaminants are emitted by this source.

(2) Surface Coating of Miscellaneous Metal Parts Operation (Division identification number: 45-0079-02/58940). This existing operation consists of an enamel dip area, enamel spray booths, and associated equipment used to coat metal parts. Exhaust filters are utilized for control of emissions. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. Haidar Al-Rawi is the assigned Division person.

For the Jefferson County "Standard-Banner"--published once on or before Thursday, November 16, 2006.

The applicant is Bio Energy (Tennessee), LLC, with a mailing address of 7700 San Felipe Drive, Suite 480, Houston, TX 77063. They seek to obtain air contaminant permits for an Energy Recovery Operation located at 750 E. Jefferson Pike, Murfreesboro, TN 37130, as follows:

(1) Internal Combustion Engines (Division identification number: 75-0444-01/60381). This existing operation consists of two (2) 1400 bkW internal combustion (IC) engines. The IC engines run on landfill gas (LFG) and are used to drive electrical generators. The requested modification is to use a top end cylinder lubricant to be added to the engine fuel supply at the engine intake manifold to improve engine lubrication and lessen the damage potential of siloxane deposits on engine parts. Also, the facility wishes to have the option to rely on its landfill gas processing system, which includes gas compressors, a knockout pot, a chiller and a particulate filter for compliance with the requirements of 40 CFR §60.752(b)(2)(iii). Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants are emitted by this source.

(2) Siloxane Treatment System (Division identification number: 75-0444-02/60381). This proposed operation would consist of two vessels filled with granular media used for siloxane adsorption, a small electric heater, a blower, an afterburner and appurtenant piping and control equipment. Landfill gas and propane would be used for fuel. The afterburner would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. H. Flores is the assigned Division person.

For the Rutherford County "Daily News Journal"--published once on or before Thursday, November 16, 2006.

The applicant is McCarter's Market and Grill with a mailing address of P.O. Box 1584, Gatlinburg, TN 37738. They seek to obtain an air contaminant permit (Division identification number: 78-0158-01/59643) for a Gasoline Dispensing Facility located at 103 Mills Park Road, Gatlinburg, TN 37738. This existing operation consists of three gasoline storage tanks and associated gasoline dispensing equipment. Stage I gasoline vapor recovery is used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. K. McLain is the assigned Division person.

For the Sevier County "Mountain Press"--published once on or before Thursday, November 16, 2006.

The applicant is Johnny's Market with a mailing address of P.O. Box 16, Chuckey, TN 37641. They seek to obtain an air contaminant permit (Division identification number: 90-0315-01/59749) for a Gasoline Dispensing Facility located at 3838 Highway 11E, Limestone, TN 37641. This existing operation consists of two gasoline storage tanks and associated gasoline dispensing equipment. Stage I gasoline vapor recovery is used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. K. McLain is the assigned Division person.

For the Washington County "Johnson City Press"--published once on or before Thursday, November 16, 2006.

The applicant is S & S Screw Machine Co., Inc. with a mailing address of 1500 McMinnville Highway, Sparta, TN 38583. They seek to obtain an air contaminant permit (Division identification number 93-0066-03/60370) for operation of an existing Miter Saw Cutting Operation located at the same address. This existing operation consists of equipment used to cut aluminum and light steel members for processing. Exhaust filters are used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. Robert Benjamin is the assigned Division person.

For the White County "Sparta Expositor"--published once on or before Thursday, November 16, 2006.
